

Timber!

Timber! IS THE OFFICIAL NEWSLETTER OF TOLLESON LUMBER COMPANY

Dixie the Lumber Dog has Been Sniffing out Deals at the Remanufacturing Plant

Dixie has been digging up specialty products down at our remanufacturing plant. We have the capabilities to run all of your favorite pattern stock. The most popular patterns that we run are 2x6 and 2x8 V-joint and center match. We can run about any pattern that you need including beaded ceiling and 1x4 and 1x6 patterns. Our reman plant is also producing 2x2's. Call your salesperson today to get a quote on a load of pattern stock.

SOME REMINDERS ON OUR GRADE MARKS

All of our short and industrial lumber is stamped with a HT (heat treat) stamp. However the only short item that we produce that is grade marked is our 2x4 6' #3 & Btr which is stamped with a #3 grade mark.

Our 2x10 and 2x12 2400 MSR is stamped with a 1W to indicate that it has #1 wane. Below is a sample stamp including the 1W.

I HEAR THAT TRAIN A COMIN'...

Spring is almost here and we know you are all going to be stocking up. Remember that we lease our own fleet of railcars and almost always have centerbeams on hand for quick loading. The Perry mill is served by the NS and the Preston mill is served by both the NS and the CSX. We can paper wrap your order for \$8/mbf or we can paper wrap the top tier for \$2/mbf. Call your salesperson today for a speedy rail rate to your locations!

Trucking News

At the moment trucking is going well. Our fleet of 20 trucks are handling all deliveries within 300 miles of the mills in a very timely manner. Routes outside of 300 miles have also been delivering quickly thanks to our new traffic manager, Wendy Adams. Call your salesperson to get a quick rate to your location. Remember that CPU's should be picked up within 5 days and after that loads are considered late. Please utilize our trucking services to ensure that you don't have any loads on the late pick up list.

Our shipping hours are as follows:

PERRY MILL

Mon thru Thurs - 7:00 am - 6:00 pm
 Fri - 7:00 am - 5:00 pm

PRESTON MILL

Mon thru Thurs - 7:00 am - 8:00 pm
 Fri - 7:00 am - 5:00 pm

MSR 2400 WANE RESTRICTIONS

All of our MSR (including 2x12) is now rated at 2400 f. Below is a chart indicating which wane restrictions are used for each MSR item.

Tolleson Lumber: MSR Wane Restrictions
